THEATRE FOR ALL!

What You Support

• Empowerment

The positive effects of performing arts are well-documented through decades of research. Participation in theatre, dance, and choir bolsters self-confidence, critical thinking, and interpersonal skills. Our Leadership program provides employment in the arts and beyond. **We empower people with disabilities through performing arts.**

• Community

People with disabilities experience high levels of social isolation and depression. TFA participation builds invaluable friendships and support systems. Members connect to the wider community through performance and social events, breaking down social barriers and strengthening the fabric of our diverse society. **We are a theatre family that benefits our community.**

• Equal Opportunity

Most schools and community theatres are unprepared to provide theatrical platforms to people with disabilities. TFA ensures students and adults receive the same benefits as their able-bodied, neuro-typical peers. Outreach classes are no cost to schools and adult company membership is sliding-scale priced. **We provide opportunities where none existed.**

Annual Program Costs

- 4 community performance groups **\$57,000**
- 8 Outreach Classes to Public schools **\$28,000**
- Program Space Rental **\$14,000**
- Theatrical Productions **\$20,000**
- Summer Camp for teens & adults **\$12,000**
